directed principally for life safety code inspections of health care facilities. The transfer was scheduled to occur on July 1, 2013, and was expressly conditioned on the state receiving, prior to that date, a modification of its agreement with the United States department of health and human services (HHS) pursuant to section 1864 of the federal "Social Security Act" that would allow DFPC to perform those functions. However, that agreement (as modified and as further set forth in the associated operations manual) does not require modification in order for such reassignment of functions to occur. Instead, the secretary of the HHS (secretary) must merely approve of the transfer. The bill therefore makes approval from the secretary the operative event upon which the House Bill 12-1268 transfers occur.

1 *Be it enacted by the General Assembly of the State of Colorado:*
