Summary of Legislation

The bill continues the State Board of Dental Examiners (board) until September 1, 2025, renames the board as the Colorado Dental Board, and implements the recommendations of the board's sunset review and report. The bill:

- clarifies the terms of office for board members;
- removes limitations on who must administer clinical competency examinations to dentists and dental hygienists and authorizes the board to accept alternative methods of evaluation clinical competency;
- repeals the requirement that the board adopt rules to limit the number of times a dentist may take a clinical examination for licensure;
- modifies the requirements for dentist and dental hygienist license applicants and the educational requirements for dental hygienists;
- modifies and defines grounds for discipline for licensees;
- allows dentists and dental hygienists to practice collaboratively as a provider network;
- permits retired dental hygienists to provide uncompensated care to low-income patients; and
- renames the "Dental Practice Law of Colorado" as the "Dental Practice Act" (act).

In addition to incorporating the recommendations in the sunset report, this bill also makes other modifications to the board and the act, including:

- authorizing the board to adopt rules regarding the use of lasers;
- specifying that licensed dentists may prescribe orders electronically;
- providing limited prescribing authority, including fluoride treatments and antimicrobial mouth rinses, to dental hygienists practicing unsupervised dental hygiene;
- specifying the duties and responsibilities of licensed dentists and unlicensed technicians regarding the construction of dental devices;
- requiring dentists and dental hygienists to obtain at least 30 hours of continuing education every 2 years;
- creating a new section regarding anesthesia and sedation permits; and
- requiring a dentist arrested for a drug- or alcohol-related offense to refer himself or herself to the peer health assistance program within thirty days after the arrest.

Fiscal Impact of Programs Set to Expire

This bill continues a program in the Division of Professions and Occupations in the Department of Regulatory Agencies (DORA) that is set to repeal, effective July 1, 2014. Under current law, state agencies may be appropriated funds to wind up the affairs of an expiring program for 12 months following the repeal date. To account for the wind-up period, the impact of extending the program beyond the current repeal date is shown as beginning in FY 2015-16, one year after the repeal date. There is no need for an appropriation of the division's base funding in FY 2014-15, since the program's authorization has not yet expired, and ongoing funding for the program is included in the department's base budget request for FY 2014-15.

The state revenue and state expenditures impact for FY 2015-16 reflects the program's anticipated fee revenue and base budget request beginning that year, plus increases to cover the implementation of this bill. Based on DORA's budget request for FY 2014-15 for the regulation of dental health care providers by the board, costs are expected to be \$1,019,230 and 3.2 FTE in FY 2015-16. The anticipated base revenue is \$1,822,650 for two years of base expenditures.

State Revenue

This bill is expected to increase cash fund revenue to the Division of Professions and Occupations Cash Fund in the DORA by **\$129,066 in FY 2014-15** and **\$110,628 in FY 2015-16**. This revenue is required to cover the additional costs of the bill beyond the continuance of base expenditures.

Fee Impact on Individuals, Families or Business. Section 2-2-322, C.R.S., requires legislative service agency review of measures which create or increase any fee collected by a state agency. Fee calculations are based on the estimated costs of the bill, including centrally appropriated costs, and the estimated number of licenses provided. The actual fee amounts will be set by the division based on the actual costs of the program. Tables 1 and 2 identify the fee impact of this bill in FY 2014-15 and FY 2015-16, respectively.

State Expenditures

Because this bill makes several changes to the board and to the act, this bill is expected to increase expenditures in the Division of Professions and Occupations in the DORA by **\$109,008 and 1.3 FTE in FY 2014-15** and by **\$95,486 and 1.3 FTE in FY 2015-16**. These costs are in addition to the continuation of base expenditures of the program in FY 2015-16. The base expenditures for the program are \$1,019,230 and 3.2 FTE in FY 2015-16.

To implement the recommendations and additional modifications in the bill, the director will adopt new rules requiring both staff time and legal services. The grounds for discipline, expansion of scope of practice, and the rules for the use of lasers, continuing education, and anesthesia and sedation permits will increase both the number and complexity of enforcement actions and require an increase in legal and expert consultant services, as well as in-house investigation, case management, and settlement work. Table 3 shows the expected costs of the bill.
