EMERGENCY IN THE COUNTY.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://www.leg.state.co.us/billsummaries.)

Current law prohibits a board of county commissioners (BOCC) from using general fund moneys for road and bridge projects. The bill
allows a BOCC to transfer moneys from the county general fund to the county road and bridge fund if the governor declares a disaster emergency in the applicable county. The transfers are allowed for 4 years following the date of the governor's declaration of a disaster in the county, and the moneys transferred into the county road and bridge fund must be used only for disaster response and recovery in connection with roads and bridges.

The bill specifies that a county road and bridge fund may consist of any general fund moneys that a BOCC transfers to the fund after the governor declares a disaster emergency in the county. The BOCC is authorized to transfer back to the county general fund any moneys that it transfers to the county road and bridge fund.

In addition, current law authorizes a BOCC to levy a tax on all taxable property in the county to defray the expenditures and payments estimated to be made from the county road and bridge fund during the fiscal year. When the BOCC determines the rate of tax to be levied, the bill directs the BOCC to exclude from the estimated balance of the county road and bridge fund any moneys that it transferred to the county road and bridge fund from the county general fund after a declared disaster emergency.
