personal property taxes paid in Colorado for which the taxpayer does not already receive a state or federal income tax benefit. This is accomplished by allowing a tax credit that is equal to the taxpayer's personal property taxes paid multiplied by a percentage equal to 100% minus the sum of the taxpayer's federal marginal income tax rate for the year and 4.63%.

To qualify for a tax credit, a taxpayer must have \$25,000 or less worth of personal property on which property taxes are paid in Colorado during an income tax year commencing in 2014, or have less than an inflation-adjusted amount for each income tax year thereafter. The amount of the credit that exceeds a taxpayer's income taxes is refunded to the taxpayer.
