Joint Budget Committee. In Senate Bill 09-228, the general assembly set a 5-year block of statutory transfers from the general fund to the capital construction fund and the highway users tax fund. The transfer for capital construction was scheduled to begin in the 2012-13

state fiscal year, provided a trigger was met. Since the trigger has not yet occurred, the block of transfers has not started.

In addition to the transfers, Senate Bill 09-228 also required the capital development committee to develop and make recommendations concerning new methods of financing the state's ongoing capital construction and controlled maintenance needs prior to January 1, 2016, which would have been just prior to the last fiscal year of the required transfers, if the trigger occurred, so that when the transfers end a new funding mechanism could possibly be in place.

Since the transfers have not yet occurred, the bill changes the deadline for the development of recommendations concerning new methods of financing the state's ongoing capital construction and controlled maintenance needs to align with the fourth year of anticipated transfers to the capital construction fund. The bill also moves the responsibility for recommendation development to the joint budget committee rather than the capital development committee.
