government as consideration for the granting of a federal mineral lease. The bonus payment is ultimately received by the state treasurer and credited to the mineral leasing fund. Under current law, 50% of the bonus payments in the mineral leasing fund are transferred to the local government permanent fund (permanent fund). Moneys in the permanent fund generally remain in the permanent fund, but may be appropriated by the general assembly under certain circumstances.

Under current law, the general assembly may appropriate moneys from the permanent fund to the department of local affairs for distribution to certain local governments when the March revenue estimate in any fiscal year indicates that the total amount of moneys that will be deposited into the mineral leasing fund during that fiscal year is anticipated to be at least 10% less than the amount deposited in the preceding fiscal year.

Currently, the general assembly is authorized to make such appropriation only in the current fiscal year. The bill authorizes the general assembly to make such appropriation in either the current fiscal year or the next fiscal year. In addition, the bill changes the revenue estimate used to determine whether the total amount of moneys anticipated to be deposited into the mineral leasing fund during that fiscal year will be at least 10% less than the amount deposited in the preceding fiscal year from the March revenue estimate to the December revenue estimate.
