A BILL FOR AN ACT
Concerning the release of medical records to a person other
than the patient, and, in connection therewith, setting
reasonable fees to be paid for the release of the
medical records.

Bill Summary
(Note: This summary applies to this bill as introduced and does
not reflect any amendments that may be subsequently adopted. If this bill
passes third reading in the house of introduction, a bill summary that
applies to the reengrossed version of this bill will be available at
http://www.leg.state.co.us/billsummaries.)

The bill clarifies that medical records in the custody of a health
care facility or an individual health care provider may be released to a
third party with a valid subpoena or other valid authorization. The bill requires the facility or provider to deliver the medical records in electronic format if requested and if there is no additional cost to the facility or provider. The bill defines what reasonable fees may be charged for the copies of the medical records.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds that:

(a) The state board of health recently repealed a rule that set the fees that may be charged to third parties for patient medical records;

(b) Having clearly established fees creates a stable and predictable business environment that allows for the provision of medical records at a reasonable price;

(c) The task of providing medical records is complex due to state and federal privacy laws that require the careful review of each record in order to protect patient privacy;

(d) The "Health Insurance Portability and Accountability Act of 1996", Pub.L. 104-191, as amended ("HIPAA"), has had a significant impact on the provision of medical records and patient privacy.

(2) Therefore, it is the intent of the general assembly to establish in statute maximum reasonable fees that may be charged to third parties, other than patients and their personal representatives, that were previously set by rule of the state board of health. These maximum fees are intended to apply only to third parties and not, under any circumstances, to patients or their personal representatives, because HIPAA governs those fees.
