shootings that occurred between January 1, 2010, and June 30, 2015, by September 1, 2015, and the information for each successive fiscal year until 2019-20 by September 1 of the following fiscal year. The division shall compile and report the data to the house and senate judiciary committees.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds and declares that:

4 (a) A founding principle and fundamental purpose of government
5 as established by the founding fathers is to provide for public safety. This
6 purpose is the linchpin element of civilized society that sets the United
7 States apart from the majority of countries that do not believe in the rights
8 and freedoms guaranteed to all Americans under the U.S. Constitution.

9 (b) Integral to this fundamental role of government is the need for
10 the state and federal legislatures to continually and carefully examine and
11 balance the authority granted to our thousands of peace officers across the
12 country with these freedoms and rights in a manner that protects and
13 serves the best interests of our communities while simultaneously
14 respecting and protecting the rights of those accused of crimes;

15 (c) In light of recent national events and local concerns related to
16 violent incidents occurring between citizens, suspects, and law
17 enforcement officers, it is imperative that better data collection occur in
18 these matters in order to responsibly and effectively consider and propose
19 future legislation related to criminal procedure and law enforcement
20 standards and policies;

21 (d) Across the United States, 2014 resulted in a twenty-four
22 percent increase in the number of law enforcement officers dying in the
23 line of duty, including sixty-two deaths resulting from felonious incidents

1 involving suspects. This number represents a forty-one percent increase
2 in felonious killing of peace officers from 2012. Most disturbing is the
3 fact that ambushes were the leading cause of officer fatalities in 2014,
4 with fifteen officers around the country being shot and killed in
5 ambush-style attacks.

6 (e) In Colorado, there are more than nineteen thousand active
7 peace officers working for more than three hundred law enforcement
8 agencies around the state. In 2013, more than five hundred seventy-five
9 individuals were charged with felony-level assaults against these
10 Colorado peace officers in the performance of their duties. In Colorado,
11 one peace officer was killed in the line of duty in 2013, and one was
12 killed in 2014.

13 (f) Of equal concern is the fact that, in 2013, there were twenty
14 fatal shootings of suspects by Colorado peace officers. In these twenty
15 encounters, fifteen suspects threatened officers with either a real or
16 simulated firearms, three brandished a knife, one assaulted an officer with
17 a car, and one reached for an officer's gun.

18 (g) As violence against officers increases, it is likely that increases
19 in deaths or injuries to suspects will rise also;

20 (h) Currently, information related to these types of incidents in
21 Colorado is both inconsistent and difficult to find. Gathering and
22 analyzing data related to officer-involved shootings is the first requisite
23 step toward seeking solutions to minimize the number of violent
24 encounters between Colorado's law enforcement officers and those
25 suspected of criminal activity.

26 (2) Accordingly, the general assembly determines that it is in the
27 interest of public safety and responsible government that the general

1 assembly act to assist the state in better accessing and recoding data
2 related to officer-involved shootings.

3 **SECTION 2.** In Colorado Revised Statutes, **add** 24-33.5-517 as
4 follows:

5 **24-33.5-517. Criminal justice data collection - definitions -**
