! A medical report if the victim requests that the evidence be collected but at the time of the medical treatment chooses not to participate in the criminal justice system; or

! An anonymous report if the victim consents to the collection of the evidence but at the time of the medical treatment chooses not to have personal identifying information disclosed to law enforcement or to participate in the criminal justice system.

For an anonymous report, the medical facility shall not provide information identifying the victim to law enforcement, and law enforcement shall not submit the evidence for testing. For a law enforcement or medical report, law enforcement shall submit the evidence for testing pursuant to existing law.
