SENATE
Amended 2nd Reading
May 5, 2015

Section 2 of the bill aligns the salaries of members of the general assembly whose terms commence on or after January 2019 with a percentage of the salary paid to a specified group of officials in the judicial branch.

Current law divides counties into 6 categories for purposes of fixing the salaries of elected county officials. The amount of the salaries specified for each category were last adjusted in 2006. In accordance with the recommendations of the county elected officials' salary commission, the bill increases the number of categories to 24. The bill continues to group the same counties that are grouped together under current law into 6 of the new categories with higher salaries than county officials receive under current law. The general assembly is specifically authorized to amend the law by bill in the future and move counties to other categories.

The director of research of the legislative council is directed to periodically adjust the salaries of elected county officials for inflation. These adjusted salaries would be posted on the general assembly's web site and take effect for terms commencing after the adjustment is made.
