A BILL FOR AN ACT

101 CONCERNING THE DONATION OF PRESCRIPTION MEDICATIONS BY
102 LICENSED HEALTH CARE FACILITIES.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://www.leg.state.co.us/bills/summaries>.)

Current law restricts the use of donated medications, medical supplies, and medical devices by a nonprofit entity to purposes related to aiding the victims of a disaster. The bill removes this restriction. In addition, the bill removes the requirement that a medication dispensed or donated must bear an expiration date that is 6 months later than the date the drug was donated, instead only requiring that the drug be unexpired.

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.
Capital letters indicate new material to be added to existing statute.
Dashes through the words indicate deletions from existing statute.

The bill prohibits the resale of donated materials.

For purposes of the statute governing such donations, the bill changes the definition of "licensed facility" to mean any health care facility that is required to be licensed by the department of public health and environment.
