based upon the general assembly's appropriations.

The bill states that it is the intent of the general assembly that there will be no waiting list for services for eligible children who apply for the waiver program, so the bill removes language about prioritizing placement in the waiver program.

Finally, the bill increases the frequency of program evaluation to an annual evaluation of the effectiveness of the services provided to children pursuant to the waiver program in meeting the goals of the waiver program.

The bill appropriates general fund moneys and moneys from the Colorado autism treatment fund for administration, medical services premiums, and behavioral health capitation payments. In addition, federal funds are expected to be available for the same purposes.
