### Bill Summary

*(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://www.leg.state.co.us/billsummaries>.)*

In 1999, the voters of the state authorized the executive director of the department of transportation (executive director) to issue transportation revenue anticipation notes (TRANs) in a maximum principal amount of \$1.7 billion and with a maximum repayment cost of \$2.3 billion in order to provide financing to accelerate the construction of qualified federal aid transportation projects. The executive director issued the TRANs as authorized. The final payments of principal and interest on the TRANs will be made during fiscal year 2016-17, which will make available for expenditure for transportation-related purposes only revenues dedicated for transportation by federal law, the state constitution, and state law that the state has been using to make principal and interest payments on the TRANs.

**Section 3** of the bill repeals a requirement that the state treasurer make conditional transfers, which are reduced or eliminated if the state is required to refund excess state revenues in accordance with the taxpayer's bill of rights, of a specified percentage of total general fund revenues from the general fund to the capital construction fund and the highway users tax fund for state fiscal years 2017-18, 2018-19, and 2019-20.

**Section 4** of the bill requires the state transportation commission to submit a ballot question to the voters of the state at the November 2016, 2017, or 2018 election which, if approved, would authorize the executive director to issue additional TRANs in a maximum principal amount of \$3.5 billion and with a maximum repayment cost of \$5.5 billion once the TRANs already issued are repaid in full. The additional TRANs must have a maximum repayment term of 20 years, and the certificate, trust indenture, or other instrument authorizing their issuance must provide that the state may pay them in full before the end of the specified payment term without penalty. Additional TRANs must otherwise generally be issued subject to the same requirements and for the same purposes as the original TRANs; except that the transportation commission must pledge to annually allocate from legally available money under its control any money needed for payment of the notes in

excess of amounts appropriated by the general assembly from the state highway fund for payment of the notes as authorized by **section 6** of the bill until the notes are fully repaid.

**Section 5** of the bill requires proceeds from the sale of any additional TRANs that are not otherwise pledged for the payment of the TRANs to be used only for specified projects until all of the projects have been funded in whole or in part with such proceeds and have been fully funded and specifies additional transportation project contract award process requirements and limitations for a project to be funded in whole or in part with proceeds of additional TRANs.

**Sections 6 and 7** of the bill require 5% of state sales and use tax net revenue collected on or after July 1, 2017, to be credited to the highway users tax fund (HUTF), paid from the HUTF to the state highway fund for use, subject to annual appropriation by the general assembly, for payment of TRANs and, to the extent not used for that purpose, state transportation projects. Section 6 also requires 1% of state sales and use tax net revenue collected on or after July 1, 2017, to be credited to the capital construction fund.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Short title.** The short title of this act is the "Fix  
3 Colorado Roads Act".

4 **SECTION 2. Legislative declaration.** (1) The general assembly  
5 hereby finds and declares that:

6 (a) Colorado's population is expected to increase to over seven  
7 million three hundred thousand in 2030, and much of this growth will  
8 occur in the interstate 25 and interstate 70 corridors;

9 (b) Population growth has significantly increased traffic and  
10 congestion in the interstate 25 and interstate 70 corridors and will continue  
11 to do so in the future, causing longer travel times, increasing air pollution,  
12 decreasing Coloradans' access to recreational opportunities, and  
13 accelerating the deterioration of Colorado's transportation infrastructure;

14 (c) The growth of the economy of this state has prompted new and  
15 ever-increasing uses of public highways, roads, and other transportation

1 infrastructure, and the existing transportation infrastructure of this state  
2 cannot accommodate such greatly increased uses; and

3 (d) In order to preserve and improve Colorado's economic  
4 prosperity and quality of life, it is necessary to develop and maintain a  
5 modern, efficient, and cost-effective multimodal transportation system that  
6 can move people, goods, and information without undue delays or  
7 environmental consequences.

8 (2) The general assembly further finds and declares that:

9 (a) One of the major concerns of the citizens of this state is the  
10 ability of the state and local governments to address the long-term  
11 transportation infrastructure needs of this state that are critical to the  
12 continued growth of the state's economy and the maintenance of citizens'  
13 quality of life;

14 (b) The state has significantly decreased its contribution of general  
15 state revenues available in recent years to fund critical priority  
16 transportation infrastructure needs, and current transportation funding  
17 mechanisms do not provide adequate revenues to keep pace with the  
18 increasing demands on transportation infrastructure statewide;

19 (c) State and regional economically significant transportation  
20 corridors, and their related congestion relief projects, are subject to  
21 available appropriation while construction costs escalate and congestion  
22 worsens;

23 (d) In 1999, the general assembly and the voters of the state  
24 approved Referendum A, which authorized the state to issue transportation  
25 revenue anticipation notes to accelerate the funding and completion of  
26 twenty-eight strategic transportation projects in significant corridors,  
27 including the T-REX project, the highly successful expansion and

1 congestion mitigation project for the interstate 25 corridor in the Denver  
2 metropolitan area;

3 (e) The success of the 1999 transportation revenue anticipation  
4 notes program shows that leveraging existing revenues is the most prudent  
5 and cost-effective means to accelerate and deliver large scale and  
6 economically significant transportation projects throughout Colorado;

7 (f) By utilizing revenue anticipation notes for the financing of  
8 transportation projects that may be financed, in whole or in part, with  
9 federal transportation funds, a significant amount of up-front revenues can  
10 be generated for such federal aid transportation projects, which will enable  
11 the state to design and construct such transportation projects without using  
12 revenues available for other important transportation projects;

13 (g) Utilizing revenue anticipation notes to finance federal aid  
14 transportation projects also results in significant cost savings to the state,  
15 since such transportation projects can be completed at present-day costs,  
16 at current low borrowing rates, and at an accelerated pace, but the state  
17 needs to be able to act quickly to issue revenue anticipation notes in order  
18 to realize these cost savings;

19 (h) It is reasonable and necessary to utilize revenue anticipation  
20 notes for the financing of federal aid transportation projects;

21 (i) Because robust transportation infrastructure benefits all  
22 Coloradans, including Coloradans who do not drive, own, or lease motor  
23 vehicles and do not pay the motor fuel taxes and vehicle registration fees  
24 that generate the vast majority of dedicated funding for transportation, it  
25 is appropriate and the intent of the general assembly to use both existing  
26 dedicated transportation funding and new dedicated transportation funding  
27 in the form of a portion of state sales and use tax net revenues as sources

1 of repayment for revenue anticipation notes; and

2 (j) The issuance of new transportation revenue anticipation notes  
3 will accelerate the funding and completion of up to three and a half billion  
4 dollars in specific and designated projects in state and regional  
5 economically significant transportation corridors throughout Colorado.  
6 The projects were identified by the Colorado department of transportation  
7 and the transportation planning regions of the state to be of highest  
8 priority, and economically significant, to the state of Colorado and the  
9 regions in which they will be built.

10 **SECTION 3.** In Colorado Revised Statutes, 24-75-219, **repeal as**

13 controller distributes the comprehensive annual financial report of the

15 between the actual amounts required to be transferred to the funds and the  
16 estimated amounts previously transferred pursuant to subparagraph (I) of  
17 this paragraph (b):

18 (4) (a) For any state fiscal year for which there are excess state  
19 revenues that are required to be refunded pursuant to section 20 of article  
20 X of the state constitution, the quarterly and year-end amounts that are  
21 required to be transferred to the funds pursuant to paragraph (b) of  
22 subsection (3) of this section shall:

23 (I) Be reduced by fifty percent, if the amount of the refund is  
24 greater than one percent of the general fund revenues for the state fiscal  
25 year but less than or equal to three percent of the total general fund  
26 revenues for the state fiscal year; and

27 (II) Not be made, if the amount of the refund is greater than three

1 percent of the total general fund revenues for the state fiscal year.

2 (b) ~~The calculations required pursuant to paragraph (a) of this~~  
3 ~~subsection (4) shall be based on the most recent revenue estimate prepared~~  
4 ~~by the legislative council staff that is available at the time of each transfer;~~  
5 ~~except that the last transfer made for each state fiscal year shall be based~~  
6 ~~on the actual revenues for the state fiscal year.~~

7 **SECTION 4.** In Colorado Revised Statutes, 43-4-705, **amend** (13)  
8 as follows:

9 **43-4-705. Revenue anticipation notes - repeal.**

10 (13) (a) Notwithstanding any other provision of this part 7 to the contrary,  
11 the executive director shall have the authority to issue revenue anticipation
