Under current law, $15 million per year of revenue from the road safety surcharge, daily vehicle rental fee, supplemental oversize and
overweight vehicle surcharge, supplemental unregistered vehicle fine, and late vehicle registration fee imposed pursuant to the "Funding Advancements for Surface Transportation and Economic Recovery Act of 2009" (FASTER) is used for transit-related projects as follows:

$10 million is used by the department of transportation (CDOT) for the planning, designing, engineering, acquisition, installation, construction, repair, reconstruction, maintenance, operation, or administration of such projects; and

$5 million is credited to the state transit and rail fund and used by the transit and rail division of CDOT to provide grants to local governments for local transit projects.

The bill repeals the statutory provisions that require these transit-related uses of the fee revenue. As a result, the revenue must be used only for road safety projects, as defined by FASTER.

Be it enacted by the General Assembly of the State of Colorado:
