## Bill Summary

*(Note: This summary applies to this bill as introduced and does not necessarily reflect any amendments that may be subsequently adopted.)*

**Legislative Audit Committee.** For the 2006-07 state fiscal year and for each succeeding state fiscal year, instead of requiring the state controller to credit and allocate state general fund surplus for the preceding state fiscal year to the highway users tax fund and the capital construction fund as required by current law on July 1 of the state fiscal year, requires the controller to:

Credit and allocate amounts estimated by the state controller to equal 90% of the amounts required to be credited and allocated on September 20 of the state fiscal year; and

Credit and allocate the remainder of the amounts required to be credited and allocated for the state fiscal year on the date on which the state controller issues the state's comprehensive annual financial report.
