

Dear Legislative Council Staff;

We, citizens of the State of Colorado, propose that a law be enacted to protect all citizens within this state from any protests, demonstrations, or disturbances at funerals, and memorial services. Mortuaries, cemeteries, churches, synagogues, and mosques are the facilities, and/or areas are to be protected for all who participate. This law will protect persons that are mourning for their departed love ones. Everyone has a natural right to have their privacy during these solemn moments. We propose that this law is initiated for all faith groups, military, and/or civilian.
