The Colorado General Assembly**

**On
Complaints Against Insurers**

FY 2006-2007

LEGISLATIVE COUNCIL LIBRARY
048 STATE CAPITOL BUILDING
DENVER, COLORADO 80203-1764

October 1, 2007

Introduction and Statutory Authority

The statutory priorities for the Colorado Division of Insurance are to:

1. Regulate insurance to ensure that insurance rates are not excessive, inadequate, or unfairly discriminatory;
2. Give consumers the greatest choice of policies at the most reasonable cost possible;
3. Permit and encourage open competition between insurers on a sound financial basis;
4. Avoid regulation of insurance rates except as specifically authorized; and
5. Require all persons having to do with insurance services to the public to:
 - a. Act with good faith in everything pertaining thereto;
 - b. Abstain from deceptive and misleading practices; and
 - c. Keep, observe and practice the principles of law and equity in all matters pertaining to such business.

CRS 10-1-101. To effectuate these statutory goals, the operational goals of the Division of Insurance are that:

1. Consumers have as many legitimate choices as possible;
2. Consumers have access to needed information to make these choices; and
3. Companies competing for consumers' business are in full compliance with the rules and laws of Colorado.

The Division of Insurance's ICARE (Insurance Consumer Awareness and Regulatory Enforcement) Section has primary responsibility for handling complaints, including investigating the allegations of complaints and working with consumers, providers, carriers, employers and others to ensure that the insurance policy provisions, laws and regulations are followed. ICARE deals with all types of insurance, including health, life, auto, homeowners, inland marine, viatical settlements, and title.

Overview of the Complaint Process

There are many ways the Division of Insurance (DOI) receives concerns about how insurance companies and health carriers are dealing with individual consumers – telephone, fax, e-mail, the DOI's website complaint form, and walk-in visitors. In addition, inquiries and complaints are lodged with the Division's ICARE Section from individual consumers, employers, providers and provider groups, insurance producers (agents and brokers), legislators on behalf of constituents, and even from companies about their competitors.

The ICARE Section makes a distinction between inquiries, which generally come into the Division by telephone call or e-mail and are generally more informational in nature, as opposed to formal complaints and protests which are required to be in writing and assert a specific dispute or disputes.

Inquiries are often made by persons seeking general information. They include consumer questions about what the insurance laws and regulations require, asking whether a company or producer is licensed by Colorado, how to reach the company, and/or what avenues or options a consumer has to question an insurance company or health carrier's determinations. Others inquiries include producer and company calls about where a particular issue is addressed in the statutes or regulations.

Complaints, as distinguished from inquiries, are more specific and are required to be in writing or filed on-line through the Division's website. They require specific information about the company involved, including type of coverage, policy number, claim number, contact information for the insurance agent, a description of the issue and a statement of what resolution is desired.

For both inquiries and complaints, the first thing the ICARE staff does is to determine whether the Division of Insurance has jurisdiction. Not all insurance plans are regulated by the Division of Insurance, particularly in the health area. This would include plans such as: government employee plans; self-funded employer plans and labor-management trust plans; Medicare; Medicaid; the Child Health Plus plan; and plans and policies written and issued outside of Colorado. If the Division of Insurance does not have jurisdiction, the complainant is so notified and advised of the correct complaint contact information.

Once the threshold question of the Division's jurisdiction is determined, a staff member of ICARE is assigned to review the complaint and to conduct an investigation. The assigned staff member sends a letter to the company on behalf of the consumer enclosing a copy of the consumer's complaint. The consumer is copied on all correspondence between the company and the DOI pertinent to the specific complaint. The company is given a specified time period, usually 20 days, to research and respond to the consumer's complaint, though the company may request an extension, which, if warranted, may be granted.

When the company's response is received, the assigned staff member reviews it, ensures the consumer has received a copy, and determines if the law, a regulation, or a contract provision has been violated. If a violation has occurred, the Division may issue a "show cause" order as preparatory to imposing a fine on the company or licensed producer. Moreover, the company or producer may be ordered to comply with the laws, regulations and policy provisions in the matter at-hand and in all future transactions pertaining to the subject matter of the complaint. If the investigation indicates criminal violations or activity, such as an unlicensed company or producer, the matter may be referred to the Division of Insurance's Investigations Unit for further work or to the Attorney General's office for prosecution.

Once a matter has been resolved, both the consumer and the company are informed of the outcome of the complaint and closure of the Division of Insurance file. For quality control purposes, consumers are sent a postcard when the file is closed asking for their evaluation of the ICARE staff's handling of the matter.

Complaint statistics and trends are regularly evaluated by Division of Insurance staff to identify the "Hot Consumer Topics" and to determine whether a pattern or practice is developing by a single company or within a segment of the industry. This analysis may lead in one or more directions – clarification of the Division of Insurance's interpretation of a law or regulation via a bulletin, amendment of a regulation to strengthen those provisions, or recommendation for a change in statute. Trends and analysis of the complaint statistics also identify issues to be reviewed in scheduled market conduct examinations, or may trigger a special, targeted market conduct investigation, desk audit or market analysis of the identified issues. The ICARE Section also uses this information to determine if additional consumer and producer education needs to be made available. New and revised information is regularly developed and entered into the marketplace, including on the Division's website at www.dora.state.co.us/insurance.

Complaint Analysis and Trends

The Division of Insurance ICARE Section logged over 26,000 incoming telephone calls, e-mails, walk-ins, and other initial contacts with consumers in 2006-2007. This is a substantial increase over the 2005-2006 level of 16,000 incoming communications.¹

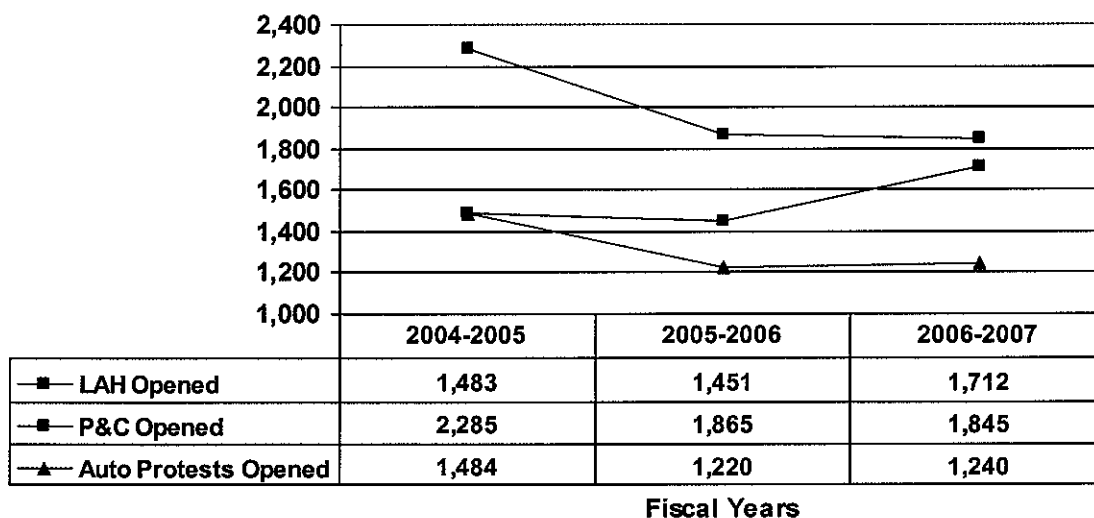

In FY 2006-2007, the ICARE Section handled complaint files as follows:

	Life, Accident and Health	Property and Casualty	Auto Protests	Total
Opened Complaints	1,712	1,845	1,240	4,797
Closed Complaints	1,618	2,100	1,111	4,829

*Totals for "closed complaints" include some cases opened in prior years.

Compared to prior years, the number of complaints handled by the ICARE Section has begun to rise after dipping in the 2005-2006 fiscal year. In 2006-2007, ICARE analysts resolved 9 percent more complaints than the previous year. In 2006-2007, ICARE received 4,797 complaints compared to 4,536 for the prior year. ICARE closed 4,829 complaints in 2006-2007 in contrast to the 4,420 the previous year.

Complaints Opened

Of the complaints opened in 2006-2007, 36 percent involved Life, Accident and Health (LAH), 38 percent were Property and Casualty complaints (P&C), and 26 percent were auto protests. It should be noted that the P&C section handles automobile insurance (including liability, medical payment, comprehensive and collision, and uninsured and underinsured motorist coverage), along with homeowners, title, and commercial insurance issues. The LAH issues include long-term care, individual and group health

¹ The FY 2005-2006 report of 31,000 communications included both incoming and outgoing communication contacts. This year's total does not include outgoing communications.

coverages, disability, annuities, Medicare Supplement and credit life and health policies. Auto protests are consumer challenges to an auto carrier's imposition of surcharges, cancellation or non-renewal, or increases in premium/reduction in coverage. The 2006-2007 complaint percentages indicate an increasing proportion of the incoming complaints are in the life and health area.

The breakdown of complaints by the type of coverage for 2006-2007 is:

* Percentages vary slightly due to rounding.

As noted previously, the proportion of health complaints has increased over previous years, while auto complaints and protests have decreased somewhat in comparison. Complaints involving life insurance and annuities have increased slightly and title insurance complaints have decreased.

Proportion of Complaints by Policy Type

	2004-2005	2005-2006	2006-2007
Health	23.4%	25.6%	29.0%
Life	3.8%	4.5%	4.8%
Annuity	0.9%	1.7%	1.8%
Auto Complaints	28.1%	28.2%	25.8%
Auto Protests	28.3%	26.9%	25.8%
Homeowner	8.9%	7.1%	7.1%
Liability	1.4%	1.1%	1.4%
Title	1.4%	2.4%	1.2%
Other	3.8%	2.5%	3.1%

* Percentages may not total to 100% because of rounding.

The Division of Insurance also calculates the percentage of complaints in which the insurance carrier was found to be wholly or partially in violation of the law or their policy provisions. Health carriers' percentage of confirmed complaints is increasing, indicating that the Division is finding in the consumer's favor more often than previously. Annuity and homeowners carriers' confirmed complaint percentages are decreasing, and thus showing improvement. Auto (excluding protests) and homeowners remain the lowest confirmed complaint percentages. Attached to this report are the 2006 Complaint Ratio Reports for the major lines, which identify by company and market share, the number of complaints lodged and found to be confirmed.

Confirmed Complaints

In FY 2006-2007, the work of ICARE resulted in benefit to consumers of over \$14 million in claim payments, overturned denials of benefits, reinstatements of coverage and in cancellation of policies and return of consumers' money. The recoveries in 2006-2007 were particularly high due to several actions involving unsuitable annuity sales. In these complaints, the Division of Insurance was able to have the annuity cancelled and the funds returned to the consumer rather than be "locked up" in the annuity with substantial early surrender charges.

ICARE Recoveries

Auto Complaints

Of the auto complaints (including auto protests), almost 95 percent of the complaints involved private passenger auto, 4 percent commercial auto, and the remainder spread among motorcycle, motor home, and rental insurance issues. Virtually all auto protests were private passenger auto. Excluding auto protests, private passenger auto complaints remain over 90 percent of the auto complaints while commercial increased to 8.5 percent. Motorcycle complaints have decreased over past years, as have complaints for all other types of vehicles.

For auto insurance, the top complaint area was underwriting due to the inclusion of auto protests. Issues were broken into four areas: Underwriting (UW), Claims Handling (CH), Marketing and Sales (MS) and Policyholder Service (PS). Complaints often have more than one issue and the major issues are categorized by the area of concern and the reason that it was raised. The top reasons for auto complaints, and the areas involved, in 2006-2007 were:

- | | |
|--------------------------|-----|
| 1. Premium & Rating (UW) | 35% |
| 2. Delay (CH) | 11% |
| 3. Denial of Claim (CH) | 10% |

4. Unsatisfactory Settlement Offer (CH)	8%
5. Surcharge (UW)	7%
6. Cancellation (UW)	4%
7. Comparative Negligence (CH)	3%
8. Non-renewal (UW)	3%
9. Liability Dispute (CH)	2%
10. Premium Refund (PS)	1%

It should be noted that the Division of Insurance's authority to address consumer complaints is limited where the complaint concerns issues of liability such as Liability Disputes and Comparative Negligence unless a judicial determination has been made.

Health Insurance

For health insurance, a little over half the complaints (52.4 percent) concerned group health insurance, and 46.9 percent involved individual health coverage. Most health insurance complaints involved Claims Handling, followed by Policyholder Services, Underwriting and Marketing and Sales. For health, the top complaint reasons in 2006-2007 were:

1. Denial of Claim (CH)	21%
2. Delay (CH)	18%
3. Unsatisfactory Settlement Offer (CH)	7%
4. Premium & Rating (UW)	5%
5. Coverage Question (PS)	5%
6. Out-of-Network Benefits (CH)	4%
7. Premium Refund (PS)	4%
8. Cancellation (UW)	3%
9. Premium Notice/Billing (PS)	3%
10. Pre-existing Condition (CH)	2%

It should be noted that many consumers contact the Division on complaints against their employer's self-funded health plan. Federal ERISA law governs most employer self-funded plans. Because the Division does not have jurisdiction over complaints involving most self-funded plans, consumers are referred to their company's Human Resources department and the U.S. Department of Labor.

Homeowners Insurance

For homeowners insurance, 78 percent of complaints involved regular homeowners insurance, 9 percent concerned condominium or townhouse coverage, and renters and farm insurance were each 3 percent of the complaints lodged with the Division. In 2006-2007, the major homeowners insurance complaint reasons were:

1. Denial of Claim (CH)	26%
2. Delay (CH)	13%

3. Unsatisfactory Settlement Offer (CH)	13%
4. Premium & Rating (UW)	8%
5. Cancellation (UW)	6%
6. Non-renewal (UW)	3%
7. Premium Refund (PS)	3%
8. Unsatisfactory Repairs (CH)	3%
9. Credit Scoring (UW)	2%
10. Coverage Question (PS)	2%

Life Insurance

Ninety-three percent of life insurance complaints involved individual life policies, with group and credit life insurance making up the balance. Most life insurance complaints involved Policyholder Services, then Claims Handling, Marketing and Sales, and finally, Underwriting. Reasons for life insurance complaints in 2006-2007, in order of frequency, were:

1. Information Requested (PS)	14%
2. Premium Refund (PS)	9%
3. Cash Value (PS)	7%
4. Coverage Question (PS)	7%
5. Misrepresentation (MS)	6%
6. Premium Notice/Billing (PS)	5%
7. Cancellation (UW)	4%
8. Denial of Claim (CH)	4%
9. Delay (CH)	4%
10. Suitability (MS)	3%

Annuities

Annuities are generally sold by life insurance companies. The majority of complaints involved Marketing and Sales, followed by Policyholder Services. There are minimal Claims Handling and no Underwriting complaints for annuities due to the nature of the product. The primary reasons for annuity complaints in 2006-2007 were:

1. Misrepresentation (MS)	27%
2. Suitability (MS)	25%
3. Agent Handling (MS)	7%
4. Premium Refund (PS)	5%
5. High Pressure Tactics (MS)	5%
6. Surrender (PS)	4%
7. Information Requested (PS)	4%
8. Cash Value (PS)	3%
9. Churning (MS)	3%

10. Delay (CH), Class Action (PS), Coverage Question (PS), Delay/No Response (PS), 1035 Exchanges (PS)	2% (each)
---	-----------

In recent years, the predominant regulatory issues over annuity sales have involved producer sales of products that are inappropriate or unsuitable for the consumers purchasing them. The Division has pursued action against both producers and the companies issuing the annuities to resolve these complaints.

Title Insurance

In 2006-2007, title insurance complaints represented 1.2 percent of all complaints filed with the Division. For title complaints, the major consumer issues were:

1. Coverage Questions (PS)	45%
2. Other (MS)	13%
3. Denial of Claim (CH)	7%
4. Premium & Rating (UW)	5%
5. Agent Handling (MS)	4%
6. Other (PS)	4%
7. Delay (CH)	3%
8. Other (CH)	3%
9. Misstatement on Application (MS)	3%
10. Premium Refund (PS)	3%

2006 Complaint Ratio Report

The Division of Insurance recently released its 2006 Calendar Year Complaint Ratio Report to provide consumers with information about the number of complaints and questions lodged against the various insurance companies and health carriers. New for the 2006 Complaint Ratio Report, the Division has created an interactive search capability.

Standard reports are available for the major consumer lines – Auto, Health, HMO, Life, Annuity, and Homeowners insurance – listing all carriers with at least five complaints or a market share of at least 0.10 percent. The interactive reports provide information on the same lines of insurance, but include carriers with fewer than five complaints and less than 0.10 percent market share. These interactive reports permit searches by line of business or company name. The results can be sorted on the web by *premium written*, *market share*, *total complaints*, *confirmed complaints* and *complaint ratio*, and the results may be downloaded into a spreadsheet.

The online and interactive 2006 Complaint Ratio Reports may be found at http://www.dora.state.co.us/pls/real/Ins_Comp_Ratio_Report.Home. Copies of the standard reports for the major insurance lines are attached as an Appendix to this report.

Insurance Complaint Ratio Information

Complaint Ratio Home

This online interactive report search is a public service of the Division of Insurance that allows you to obtain Complaint Ratios for a variety of companies.

New This Year

We've changed some of the ways we present information on insurance companies and complaint ratios.

- This is the first year we have provided an interactive report, allowing the consumer to determine how to view the information.
- Now you can choose to view selected companies, or compare specific data, see all data, or sort the information in a variety of ways. You can sort for a specific company or by companies with the most or fewest complaints, the amount of premiums written in Colorado, or by ascending or descending order of the actual complaint ratios.
- We are reporting "Life" and "Annuity" complaints and premiums separately. In past years, companies selling either type of insurance were included in a single report, but now this information is shown separately to make comparisons more accurate.
- In the health insurance arena, Medicare, Medicaid and Excess Loss, and Federal Employee Health benefit plan premiums are excluded from the complaint ratios, where possible, since the Division of Insurance does not have authority over complaints in these areas.

We hope this presentation makes the information more useful for you when comparing and selecting insurance.

Please let us know if you have suggestions or comments so we can continue to improve our service to Colorado's consumers.

About Consumer Complaint Ratios

The consumer complaint ratios of insurance companies and health carriers illustrate the number of overall complaints received by the Division of Insurance. It also shows how many complaints are "confirmed" - where the company was found to be in the wrong. The amount of premium written in Colorado is included to indicate how large or small the company is, and is a general indication of how many people are insured by the company.

These reports show that some companies generate more complaints per \$1 million of premium than other companies. The ratios provide helpful information to consumers interested in evaluating insurance companies.

This online search process will display the complaint ratio, total complaint counts, the number of and percentage of confirmed complaints, premium volume, market share and the name of the group of companies that this company is associated with, if applicable.

For the purposes of these ratios:

- A complaint is defined as written correspondence expressing a grievance against an insurer or

carrier.

- "Confirmed complaints" are those in which the consumer prevailed, in whole or in part, in a complaint against the company.
- A total complaint ratio of 4.40, for example, means the company had approximately 4.40 complaints per \$1 million worth of business.
- Information is included by the type, or "line," of insurance accounting for the greatest number of complaints and premiums written. On average, private passenger automobile insurance generates the highest complaint ratios, followed by homeowners/farmowners and health insurance. Life insurance companies usually have lower than average complaint ratios.
- Large differences can be seen among competing companies; small differences should not be considered meaningful.

Consumers are cautioned against relying only on complaint ratios when evaluating companies. Premium costs, benefits offered, financial condition, and level of service should all be considered.

Standard Reports

The standard reports provide a list of companies with five (5) or more complaints or at least one tenth of a percent (.1%) of the premium volume in a particular line of insurance. In this manner, the report looks at those companies with significant numbers of complaints but also provides information on a number of insurers and carriers writing business in Colorado.

Interactive Reports

The interactive reports provide the ability to search for specific companies and/or by policy type. All companies with any premium written in Colorado or at least one complaint are included in the database, not just those listed in the standard reports.

Please Note: The companies included in the standard reports and interactive reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Insurance Complaint Ratio Information

Interactive Reports

This page allows you to enter information for specific companies or policy types.

You do not need to know the company's entire official name to look at complaint ratios. You can enter the whole name or just part of the company name, as you know it. If you have a company name you're interested in, for instance, enter as much of the name as you'd like. Some companies do business in Colorado under a name that is different from the name it has listed on its certificate of authority. Both names will be displayed, with the more commonly known name or its "dba" ("doing business as") in parentheses.

You can search using the company name as you know it: nicknames, group names, aliases, common abbreviations and some company acronyms (initials) are included as options when possible. You can even use just part of the company name.

For example, if you put "ING" in the search field, you will find an industry group whose initials are ING, as well as six other companies that are related to the ING parent company. However, every insurance company that has "ING" in its name or any alias, such as "GMAC HoldING" or "Aegon US HoldING" will also appear in the results. You will also get results for "VikING," "WashINGton" and "LexINGton" because "ING" is part of their names.

If you do not get the results you want, try another search using fewer words, a different spelling, or adding or removing search items to change your request.

This online search process will display the complaint ratio, total complaint counts, the number of and percentage of confirmed complaints, premium volume, market share and the name of the group of companies that this company is associated with, if applicable. "Confirmed complaints" are those in which the consumer prevailed, in whole or in part, in a complaint against the company.

Large differences can be seen among competing companies; small differences should not be considered meaningful.

Consumers are cautioned against relying only on complaint ratios when evaluating companies; premiums, benefits, financial condition, and level of service should all be considered. Please Note: The companies included in the interactive reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Please Note: The companies included in the standard reports and interactive reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Insurance Complaint Ratio Information

Standard Reports

The standard reports provide a list of companies with five (5) or more complaints or at least one tenth of a percent (.1%) of the premium volume in a particular line of insurance. In this manner, the report looks at those companies with significant numbers of complaints but also provides information on a number of insurers and carriers writing business in Colorado. Private passenger automobile protests are included in the number of complaints. Federal Employees Health Benefit Plan premiums are not included in this report because those complaints are not counted against the company.

Information is included for lines of insurance which account for the greatest numbers of complaints and premiums written. On average, private passenger automobile insurance generates the highest complaint ratios, followed by homeowners/farmowners and health insurance. Life insurance companies have lower than average complaint ratios.

These reports provide the complaint ratio, total complaint counts, the number of and percentage of confirmed complaints, premium volume, and market share. "Confirmed complaints" are those in which the consumer prevailed, in whole or in part, in their complaint against the company.

Large differences can be seen among competing companies; small differences should not be considered meaningful. Complaint ratios which are based on less than \$1 million in premium are highly variable and may not be an adequate measure of a company's performance.

Consumers are cautioned against relying only on complaint ratios when evaluating companies; premiums, benefits, financial condition, and level of service should all be considered.

Please click on the link to view the report.

If you'd like to search for a specific company that is not included in the standard report, click on the "Interactive Reports" link below and enter your search criteria. The interactive reports provide the ability to search for specific companies and/or by policy type. All companies are included in the database, not just those listed in the standard reports.

Please Note: The companies included in the standard reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Insurance Complaint Ratio Information

Search Results

The consumer complaint ratios of insurance companies and health carriers illustrate how some companies generate more complaints per \$1 million of premium than others. The ratios provide helpful information to consumers interested in evaluating their insurance companies and/or health carriers, and to state regulators in targeting companies requiring closer review.

Consumers are cautioned against relying only on complaint ratios when evaluating companies. Premium benefits, financial condition, and level of service should all be considered.

Please Note: The companies included in the standard reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Insurance Complaint Ratio Information

Search Results

The consumer complaint ratios of insurance companies and health carriers illustrate how some companies generate more complaints per \$1 million of premium than others. The ratios provide helpful information to consumers interested in evaluating their insurance companies and/or health carriers, and to state regulators in targeting companies requiring closer review.

Consumers are cautioned against relying only on complaint ratios when evaluating companies. Premium benefits, financial condition, and level of service should all be considered.

Please Note: The companies included in the standard reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Insurance Complaint Ratio Information

Search Results

The consumer complaint ratios of insurance companies and health carriers illustrate how some companies generate more complaints per \$1 million of premium than others. The ratios provide helpful information to consumers interested in evaluating their insurance companies and/or health carriers, and to state regulators in targeting companies requiring closer review.

Consumers are cautioned against relying only on complaint ratios when evaluating companies. Premium benefits, financial condition, and level of service should all be considered.

Please Note: The companies included in the standard reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Search Criteria:

- Reporting Year: **2006**
- Company Name/Alias: **Not Specified**
- Policy Type: **Annuity Insurance**
- (At least 5 Total Complaints OR a Marketshare of at least 0.10% for this Standard Report)

Insurance Complaint Ratio Information

Search Results

The consumer complaint ratios of insurance companies and health carriers illustrate how some companies generate more complaints per \$1 million of premium than others. The ratios provide helpful information to consumers interested in evaluating their insurance companies and/or health carriers, and to state regulators in targeting companies requiring closer review.

Consumers are cautioned against relying only on complaint ratios when evaluating companies. Premium benefits, financial condition, and level of service should all be considered.

Please Note: The companies included in the standard reports are responsible for reconciling documented complaints and reporting discrepancies to the Division of Insurance. However, not all of the companies have performed this review. Therefore, these reports may contain unverified information.

Search Criteria:

- Reporting Year: **2006**
- Company Name/Alias: **Not Specified**
- Policy Type: **Health Maintenance Organization**
- (At least 5 Total Complaints OR a Marketshare of at least 0.10% for this Standard Report)
