

The mission of **Colorado Group Insurance Association (CGIA)** is to advance the level of knowledge, ethics and professionalism in the employee benefits industry by educating our members, the community and policy makers on issues impacting the delivery, administration and financing of employee benefits.

The purpose and objective of CGIA is to:

- Promote the advancement and knowledge of employee benefit concepts
- Provide a forum for the discussion of ideas and best practices
- Promote goodwill in the community and improved services to the public

CGIA was founded in 1989 and has grown to over 300 group insurance professionals. Our members are employed by 30+ insurance carriers, 40+ insurance agencies, numerous law firms, municipalities, healthcare providers and other industries in our community.

CGIA's Board has a four-member Executive Committee and nine Committee Chairs. CGIA Committees include: Programs, Community Relations, Communications, Legislative, Social/Golf Tournament, Association Liaison, Membership, Continuing Education, and Technology. CGIA's Board meets monthly before our regularly scheduled educational luncheon programs. These well-attended programs provide continuing education and networking opportunities for our members.

Each year, CGIA selects a local charity that provides healthcare or related services to the community. Along with an annual contribution, CGIA partners with the charity to participate in fundraising activities and volunteer opportunities. In addition, the proceeds of our Annual Golf Tournament are donated to our charity partner. Currently, we are working with Inner City Health Center.
