

Colorado Statewide Digital Trunked Radio System (DTRS) Statistics

- DTRS User Agencies (Primary and Interoperability): 750+ including Law Enforcement, Fire, EMS, Transit, Public Works across all levels of government (local, regional, tribal, State and federal).
- Total DTRS Sites on Air: 176
- Total DTRS Sites Funded: 186 (estimated completion 3Q10)
- Radios on the System: 32,000+

- In FY09, the State of Colorado provided \$7.945M capital construction funds to upgrade the system from SR6.5 to SR7.5, which brings DTRS to an IP based platform. This included hardware and software upgrades to all three zone controllers, all sites and over 140 dispatch console positions. The system is currently at SR7.2 and will be upgraded to SR7.5 in 2Q09.
- Public Safety Interoperable Communications (PSIC) Grant Funding: The Colorado All Hazards Regions and the State of Colorado used a significant portion of the statewide PSIC funding to purchase subscriber equipment and DTR infrastructure, including funding 5 new DTRS sites (reflected in the total above).
- Regions statewide also continue to use Homeland Security grant funds to ensure basic interoperability for first responder agencies.

State-Directed Funding Allocations for Interoperable Communications - Fiscal Years 1999 Through 2008 (In Millions)					
Agency	Funding Source				Total
	State Capital Construction	Homeland Security Grants	CWIN Initiative	Other Federal Grants	
Personnel & Administration	\$58.9	\$1.3	\$0.0	\$4.5	\$64.7
Information Technology	-	\$0.4	-	\$4.3	\$4.7
Local Affairs	\$0.0	\$1.7	\$0.0	-	\$1.7
Public Safety	\$0.0	\$0.2	\$0.0	-	\$0.2
Natural Resources	\$0.0	\$0.6	\$0.0	-	\$0.6
Local Governments	\$0.0	\$50.9	\$34.7	\$10.5	\$96.1
Total	\$58.9	\$55.1	\$34.7	\$19.3	\$168.0
