

Xcel's 'extra charges' bleeding user dry

I just received my bill from Xcel Energy and I am appalled at the "extra charges" that are tacked on to our statements!

I am a senior citizen on a fixed income and am getting priced out of my home.

Just to give people an idea of how disgusting this is, my bill was \$237.28. I have *never* had a bill this high in the summertime! Of that total, \$113.13 was in "extra charges"

GRSA - \$7.02

Air Quality Imp - \$0.88

Trans Cost Adj. - \$0.27

Electric Commodity Adj. - \$69.69

Demand Side Management Cost - \$1.67

Purch Cap Cost Adj. - \$20.72

Renew Energy Std Adj. - \$2.26

Franchise Fee - \$4.73

Sales Tax - \$5.89

Now you tell me - are we getting ripped off or what?

If this is a Public Utilities Commission issue, as I am told, why can't legislators do something about it?

I am asking someone to do something about this! Please. Help!
