

Mike Mauer, Director
Legislative Council

Colorado Citizens are not required to pay income taxes because the 16th Amendment to the US Constitution was not ratified. The required 3/4ths of the States was not met; Oklahoma, Missouri, and Oregon passed different language and were "deemed" to have ratified. This legal fiction is absurd and the original constitution limited taxation to direct taxes. No tax shall be collected from Colorado Citizens (income tax, social security and medicare, corporate income taxes, etc.); anyone attempting to collect these taxes on Colorado Citizens shall be subject to fines and imprisonment.
