Summary of Legislation

Budget Package Bill. This bill is recommended by the Joint Budget Committee as part of the budget package. It requires the board of Pinnacol Assurance (Pinnacol) to transmit \$500 million from Pinnacol's surplus funds to the General Fund between July 1, 2009, and September 1, 2009. The bill removes statutory language stating Pinnacol's revenues, moneys, and assets belong solely to Pinnacol and are not available to the state.

Background

Pinnacol is a political subdivision of the state that provides workers' compensation insurance to over half of Colorado employers and is prohibited by law in most cases from refusing to insure any Colorado employer. It pays a surcharge on the premiums it collects, which totals about \$500 million annually, but does not pay premium taxes, state or federal income taxes. In 2004, when a reasonable surplus was reached in the Pinnacol fund, the state treasurer transferred investment

authority to the Pinnacol board. As of December 31, 2008, Pinnacol reported a surplus of \$698 million but is only required by the insurance commissioner to have a minimum surplus of \$113.2 million. It has paid dividends to policyholders in each of the last four years.

State Revenue

The bill requires Pinnacol to transmit \$500 million to the state treasurer to credit to the General Fund which will be new state revenue. Thus, there will be more General Fund available for appropriations for FY 2009-10 and to shore up the state's statutory reserve (\$199.5 million for FY 2009-10).
