**Department of
Regulatory Agencies**

Executive Director's Office

November 1, 2023

The Honorable Members of the General Assembly c/o
the Staff of the Legislative Council
State Capitol Building
200 East Colfax Denver, CO 80203

Dear Members of the General Assembly:

I am pleased to submit the Department of Regulatory Agencies (DORA) 2024 Regulatory Agenda and the 2023 Regulatory Report, in compliance with §2-7-203, C.R.S. The Department's Regulatory Agenda has also been submitted to the Colorado Secretary of State for publication in the Colorado Register. The Regulatory Agenda and Regulatory Report are posted on our website at <https://dora.colorado.gov/legislative-services>.

The Agenda provides a summary of rules under consideration for review, revision, repeal, or creation in the upcoming calendar year. The Report summarizes all permanent, temporary, and emergency rules that were or are being revised, created, or repealed and the results of the mandatory review of regulations per the Department's Rule Review Schedule in the current calendar year. As reflected in the Report, all permanent regulations adopted by the Department involved early stakeholder engagement, as outlined on the Department's website.

According to §2-7-203(2)(a)(II), C.R.S., the Department will be prepared to discuss the Agenda and Report with the Department's Joint Committee of Reference during our upcoming SMART Act presentation.

Sincerely,

A handwritten signature in black ink that reads "Patty Salazar".

Patty Salazar

Executive Director

Regulatory Agenda

COLORADO

Department of
Regulatory Agencies

Overview

The Colorado Department of Regulatory Agencies submits the following 2024 Regulatory Agenda in fulfillment of the statutory requirements set forth in Colo. Rev. Stat. §2-7-203(4). Pursuant to state law, annually on November 1 executive-branch agencies must file a Departmental Regulatory Agenda (DRA) containing:

- A list of new rules or amendments that the department or its divisions expect to propose in the next calendar year;
- The statutory or other basis for adoption of the proposed rules;
- The purpose of the proposed rules;
- The contemplated schedule for adoption of the rules;
- An identification and listing of persons or parties that may be affected positively or negatively by the rules; and
- A list and brief summary of all permanent and temporary rules adopted since the previous DRA was filed.

The Regulatory Agenda also includes, pursuant to Colo. Rev. Stat. §24-4-103.3, rules to be reviewed as part of the Department's "Regulatory Efficiencies Reviews" (which are denoted as such in the "purpose" column). The DRA is to be filed with the Legislative Council staff for distribution to the committee(s) of reference, posted on the department's web site, and submitted to the Secretary of State for publication in the Colorado Register. Each department must also present its DRA as part of its "SMART Act" hearing and presentation pursuant to Colo. Rev. Stat. §2-7-203(2)(a)(II).

83	DOI		5-3-2005	Workers' Compensation Deductible Reimbursement	Revision	§8-44-111 and §10-1-109, C.R.S.	Pursuant to § 8-44-111(3), C.R.S., Colorado is a net reporting state for workers' compensation insurance. This means that an employer's deductible up to the split point is subtracted from the amount of the loss per claim for the purpose of calculating the employer's experience modification factor. Many employers have not received the intended benefit of the deductible exclusion. Due to reporting requirements, insurers reported the full loss to the statistical agent because they had not actually received the deductible reimbursement from the employer. Frequently, insurers fail to correct their unit statistical reports to show the paid deductible amount, thereby depriving the employer of the benefit of the deduction. This rule eliminates the requirement of actual receipt of the deductible by insurers prior to reporting such deductible to the statistical agent for the purpose of calculating the experience modification factor.
